Praying Everyone has different beliefs. Some people pray and some people don't pray. I believe man is God. I believe in the universe. I also believe in the sun. The sun is a part of the universe and provides vitamin d for humans. The sun is much bigger than the earth. Also the sun provides energy for plants. The sun doesn't judge anyone, it just shows up in the sky. Also without even seeing the sun I know it's real because I can feel the heat on a hot day. The sun is very powerful. I believe the universe will provide me with what I need. The universe is big and powerful so I have faith in it. Ask the universe for what you want and put the work in when needed. So how do we pray to the universe? The universe responds to how you feel. It's really important that you feel good. The universe responds to this vibration. Focus on what you are
